#Events News

E-Estate Group Inc. announced that it will host E-Estate 1 Year Live: Washington DC Summit on June 13, 2026, bringing together company leadership, agents, buyers, strategic partners, and guests interested in the future of blockchain-based real estate ownership.

The summit will take place at **The Watergate Hotel in Washington, D.C.** and will mark one year since the launch of the E-Estate platform.

The event is designed as a milestone gathering for the E-Estate ecosystem and a broader discussion on how real estate tokenization is moving from early adoption into structured infrastructure. The summit will focus on real assets, blockchain-based ownership models, Real World Assets, platform growth, and the next stage of digital property participation.

Over the past year, E-Estate has moved from launch phase to active market development. According to company data, E-Estate structured a tokenized real estate portfolio exceeding **\$100 million** in 2025, while total EST sales across tokenized property offerings have now surpassed **\$32 million**.

The company said the summit will provide a clear review of what has been built so far, what has been learned during the first year, and how E-Estate plans to continue expanding its infrastructure, property portfolio, and user access.

"Real estate tokenization is no longer only a concept," said [Name], CEO of E-Estate Group Inc. "The next stage is about building infrastructure around real assets, legal structure, ownership, and what is what we are focused on at E-Estate."
