### XLA Reveals 'Metasites' 3d Internet Framework

Chainwire - Tue Mar 21, 2:38PM CDT Partnership Content

**Los Angeles, USA, 21st March, 2023, Chainwire**

XLA, a community-driven organization of video game and entertainment industry professionals, will today announce 'Metasites'; a modular 3D Internet framework leveraging metaverse, cloud, and AI technologies.

Funded with an initial \$100M USD, XLA Metasites empowers users to transform virtual worlds by creating unique content. XLA Chief Product Officer Alexey Savchenko will present a demo of Metasites at the Game Developers Conference (GDC) in San Francisco this afternoon during a panel called "Emerging Approaches: What the Metaverse can teach us about Social and Narrative Design through Synthetic Media".

The presentation will reveal Metasites' high fidelity graphics, core experience, instant access to the system in the cloud through the browser, OpenAI's GPT-3.5 integration powering non-active characters and their behavior, virtual assistant IVEE, ability to semantically analyze text and generate 3D scenes in UE5, and many other features. Metasites allows creators to deploy Unreal Engine 5 content and connect to the XLA ecosystem of features and services.

"We call them Metasites, and the idea here is that every one of these locations is part of an infinite network of 3D, explorable spaces. Like hyperlinks, portals connect these worlds, and the core infrastructure operates on a series of open protocols and standards - much like today's web," Savchenko will say. "We strongly believe that the future of the internet is in 3D and are looking to partner up with creators and brands from all spheres and industries to build it together."

Access to Metasites for individual creators and enterprise clients will be based on a revenue share model, providing every user full control and management of their content. Users can access virtual assets and various tools, including a versatile SDK, experiences editor, inventory and item management system, payment processing, marketing tools, and more. XLA also aims to provide a seamlessly interoperable encounter related to digital items - with various functionalities connected to inventory objects within different environments.

## Metacade Presale Hits Final Stage Before Listings, Raising Over \$500k in...

[cryptowisser.com/metacade-presale-hits-...](https://cryptowisser.com/metacade-presale-hits-...)

The screenshot shows a web article on the Cryptowisser website. The header includes the site logo, navigation links (Exchanges, Debit Cards, Guides, News, More), a search bar, and a language selector. The article title is 'Metacade Presale Hits Final Stage Before Listings, Raising Over \$500k in under 24 hours', published 5 days ago, with a 3-minute read time. The background of the article header features a pattern of various cryptocurrency symbols. The main text is a press release about the Metacade token presale.

**Press Release**

Metacade, fast becoming the most exciting GameFi project in 2023, has reached the final stage of its token presale after raising more than \$500k in 24 hours, reaching a total raise of \$12.4m.

This comes after a wave of positive news, which includes a showcase of UI designs, a detailed view of their staking pool and the announcement of the **Metacade referral programme**.

The presale is scheduled to end on the 30th of March 2023, after which the MCADE token will list on multiple exchanges, including Uniswap & BitMart.

Users can participate in the Metacade presale [here](#).

Russell Bennett, CEO of Metacade, said of the positive news, "As we enter the final stage of the presale, it's all hands-on-deck at Metacade. We're proud to have achieved so much in so little time, and extremely grateful for the support of our loyal Metacadars and investors in the project. We're now gearing up for the exchange listings and for our Q2 product

XLA Chief Product Officer Alexey Savchenko will present a demo of Metasites at the Game Developers Conference (GDC) in San Francisco this afternoon during a panel called "Emerging Approaches: What the Metaverse can teach us about Social and Narrative Design through Synthetic Media".

The presentation will reveal Metasites' high fidelity graphics, core experience, instant access to the system in the cloud through the browser, OpenAI's GPT-3.5 integration powering non-active characters and their behavior, virtual assistant IVEE, ability to semantically analyze text and generate 3D scenes in UES, and many other features. Metasites allows creators to deploy Unreal Engine 5 content and connect to the XLA ecosystem of features and services.

Savchenko, said:

### XLA Reveals 'metasites' 3d Internet Framework

**Los Angeles, USA, 21st March, 2023, Chainwire**

XLA, a community-driven organization of video game and entertainment industry professionals, will today announce 'Metasites', a modular 3D internet framework leveraging metaverse, cloud, and AI technologies.

Funded with an initial \$100M USD, XLA Metasites empowers users to transform virtual worlds by creating unique content. XLA Chief Product Officer Alexey Savchenko will present a demo of Metasites at the Game Developers Conference (GDC) in San Francisco this afternoon during a panel called "Emerging Approaches: What the Metaverse can teach us about Social and Narrative Design through Synthetic Media".

## XLA Reveals 'metasites' 3d Internet Framework - Chainwire

[chainwire.org/2023/03/21/xla-reveals-me...](https://chainwire.org/2023/03/21/xla-reveals-me...)

The screenshot shows the Chainwire website interface. At the top, there's a navigation bar with links: Home, Pricing, Newsroom, Join as Publisher, Blog, About, and Log In. The main headline reads "XLA Reveals 'metasites' 3d Internet Framework - Chainwire". Below the headline, a breadcrumb trail shows "Home > Newsroom > XLA Reveals 'Metasites' 3d Internet Framework". A search bar is located on the right side of the page. The article title "XLA Reveals 'metasites' 3d Internet Framework" is prominently displayed, accompanied by the XLA logo. A date badge indicates "21 Mar". Below the title, the location and date are listed: "Los Angeles, USA, 21st March, 2023, Chainwire". A short introductory paragraph states: "XLA, a community-driven organization of video game and entertainment industry professionals, will today announce 'Metasites'; a modular 3D Internet framework". On the right side, there's a "Tags" section with various categories like Bitcoin, Blockchain, Blockchain Marketing, Crypto, DeFi, Exchange, Funding, ICO, Metaverse, NFT, PR, Press Release, and Token. At the bottom right, there's a "Contact Us" section.
